awards in IT Competition for
Youth at the provincial level
(2018 ,2019)

ABOUT ME

My name is Dat, I'm a final year undergraduate student majoring in IT. I'm seeking a job opportunity in web backend development. My goal is to apply the knowledge I have gained throughout my studies to contribute to software development and enhance my skills.

SKILL

Java (Spring Framework - JSP/Servlet)

- C#/C++/Python/Kotlin
- Bootstrap/JQuery
- Jetpack Compose
- MySQL, SQL Server
- Google Cloud
- Git, RabbitMQ

PROJECT

RECAUCTION-WEB (GITHUB)

- Spring Web + Thymeleaf + Security + MySQL + Paypal API
- This is an e-commerce website that uses a reverse auction mechanism. Users can place bids on the products they want to buy and the sellers will bid to find out who is the winning bidder in the auction session.

TDA STORE WEB RESTFUL-API (GITHUB)

- RESTful Web Service with Spring + RabbitMQ.
- TDA Web is an e-commerce website built on the REST API architecture used for related TDA e-commerce applications such as mobile and web including login and authentication with JWT, and input validation, shopping cart, checkout...

TDA LAPTOP MOBILE APP (GITHUB)

- Jetpack Compose + Dagger Hilt + RetrofitV2 + RoomDB
- TDA Laptop is an e-commerce app have features such as viewing products, changing user information, and logging in/registering ... The application is developed based on the MVVM architecture.
